

The background is a vibrant, abstract composition of colorful inkjet pigment. It features a dense, swirling pattern of fine, brush-like strokes in various colors including blue, yellow, orange, red, and purple, set against a dark, almost black background. The overall effect is dynamic and artistic, resembling a microscopic view of pigment particles or a close-up of a paint splatter.

ABOUT US

Welcome to Aqueous Inkjet Colorants (A.I.C), your premier supplier and manufacturer of advanced self-dispersed technology for water-based inkjet printer pigment dispersions. At A.I.C, we specialize in pioneering pigment solutions that enhance the performance and sustainability of inkjet printing applications across various industries.

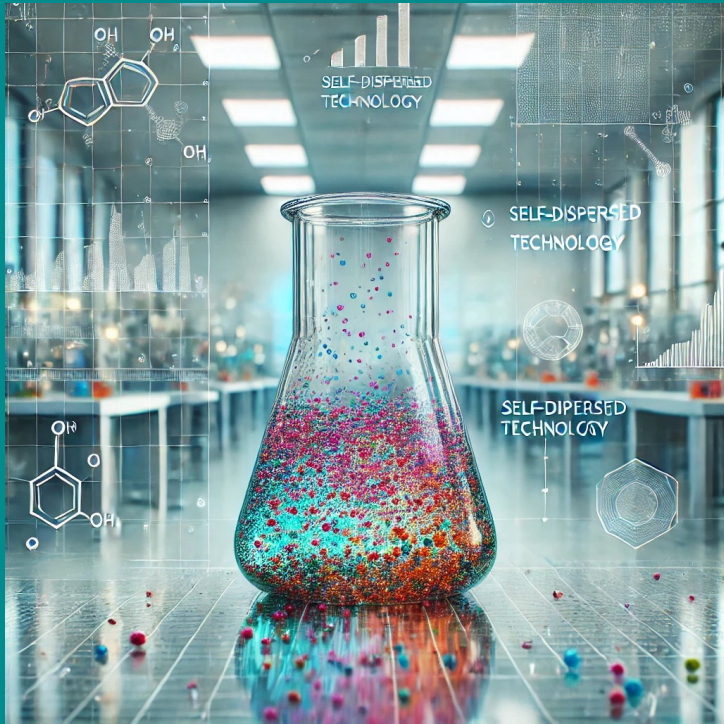

At A.I.C, we are committed to innovation and environmental stewardship. Our water-based formulations are developed to reduce environmental impact, providing our clients with eco-friendly solutions that do not compromise on quality or performance.

Established with a vision to revolutionize the digital printing landscape, Aqueous Inkjet Colorants leverages cutting-edge technology and extensive expertise to produce superior quality pigment dispersions. Our products are designed to offer exceptional color vibrancy, durability, and compatibility with a wide range of printing systems.

Our team of experts at Aqueous Inkjet Colorants continuously works to advance the science of inkjet technology, ensuring that our clients receive the most effective and sustainable pigment solutions available. Trust A.I.C to be your partner in achieving outstanding print quality and embracing greener printing technologies.

Advanced Self-Dispersed Technology Surface Modified

- Features smaller particles for brighter, more transparent colors with higher strength and low viscosity.
- Contains no resin, abrasives, dispersants, additives, or solvents for purity in use.
- Non-toxic, odorless, and environmentally friendly, adhering to sustainability standards.
- Offers exceptional stability and consistent high quality.
- Highly versatile, suitable for a wide range of applications.

PRODUCT

Aqueous Water-Based Inkjet Pigment Colorants Dispensions

Pigment: 15%
Water: 85%

SELF-DISPERSED TECHNOLOGY
C.I. Pigment Blue 15:3 (C.I.74160, β -)

Pigment: 15%
Water: 85%

SELF-DISPERSED TECHNOLOGY
C.I. Pigment Violet 19 (C.I.73900)

Pigment: 15%
Water: 85%

SELF-DISPERSED TECHNOLOGY
C.I. Pigment Red 122 (C.I.73915)

Pigment: 15%
Water: 85%

SELF-DISPERSED TECHNOLOGY
C.I. Pigment Yellow 155 (C.I.200310)

Pigment: 15%
Water: 85%

SELF-DISPERSED TECHNOLOGY
C.I. Pigment Black 7

APPLICATION

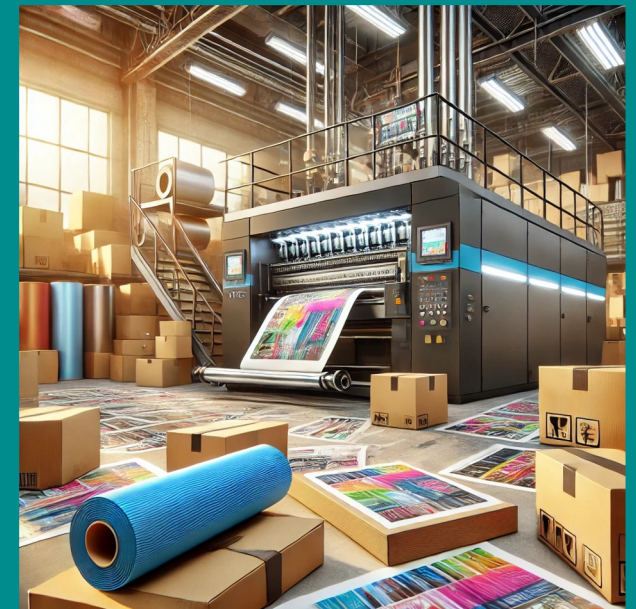

Our aqueous inkjet pigment colorants are designed for digital textile, office, and package printing applications, providing vibrant and high-quality inks for diverse printing needs.
